

Amendments to the Claims:

The listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claims 1- 5 cancelled

6. (Currently amended) ~~The method of claim 1 or 2,~~ A method for producing a potentiated homeopathic pharmaceutical product comprising contacting said pharmaceutical product with a potentiating agent, said potentiating agent containing a member selected from the group consisting of bound amino acids, free amino acids, and mixtures thereof, the content of said bound amino acids, when present, being more than 400 nmoles/L, and the content of said free amino acids, when present, being more than 200 nmoles/L, wherein the bound and/or amino acids are produced by adding contained in natural, distilled fruit alcohol.

7. (Currently Amended) ~~The method of claim 1 or 2,~~ The method of claim 1 or 2, A method for producing a potentiated homeopathic pharmaceutical product comprising contacting said pharmaceutical product with a potentiating agent, said potentiating agent containing a member selected from the group consisting of bound amino acids, free amino acids, and mixtures thereof, the

content of said bound amino acids, when present, being more than 400 nmoles/L,
and the content of said free amino acids, when present, being more than 200
nmoles/L, wherein a fruit alcohol ~~with a high content of amino acids~~ is used as
the potentiating agent.

8. (Currently Amended) The method of claim 7, ~~A method for
producing a potentiated pharmaceutical product comprising contacting said
pharmaceutical product with a potentiating agent, said potentiating agent
containing bound amino acids and/or free amino acids, the content of said bound
amino acids, when present, being more than 400 nmoles/L, and the content of
said free amino acids, when present, being more than 200 nmoles/L, wherein a
fruit alcohol with a high content of amino acids is used as the potentiating
agent, and~~ wherein said fruit alcohol is an alcohol from blackthorn.

Claim 9-11 cancelled

12. (Currently amended) The method of claim 6, 7 or 8, wherein said
potentiating agent contains more than 800 nmoles/L of bound amino acids
and/or more than 400 nmoles/L of free amino acids.
